

Automotive Collision Technology

MON VALLEY
CAREER & TECHNOLOGY CENTER

The Automotive Collision Technology career pathway is a 3-year program that offers state-of-the-art technologies, hands-on application, and individualized curriculum.

Curriculum Highlights:

Place yourself in a true to industry shop environment full of the most current tools and vehicles. Learn the skills needed to repair or restore vehicles back to their original condition. This program provides you the ability to enter the workforce or attend post-secondary education with confidence.

Gain real-life experience working on:

- Domestic and imported cars, trucks, SUVs, and motorcycles
- Vehicle interior cleaning and repair
- Plastics and Adhesives
- Welding Applications

Second & Third Years

- Live Work Experience
- Individualized Curriculum
- Industry Certification Training
- Cooperative Education Opportunities
- Program sponsored vehicle projects

Software & Equipment Used:

- Global Solutions Downdraft Bake Spray Booth
- Lincoln welders
- Snap-On and MAC hand tools
- Axalta Chromabase System
- Colornet Computerized Mixing System
- ICAR Pro-Level 1 Package
- CCC Estimating

Career Focus:

As an Automotive Collision Technician student, you will be prepared to work in Collision Centers, Aviation, Marine, and Industrial Manufactures. You will have a start with ICAR certifications that are standardizing the industry. If post-secondary education is in your future, the skills learned here will put you ahead of the class, enabling you to fine-tune your skills and grow your education.
